## Africanized honeybees confirmed in Northwest La.

The Department of Agriculture and Forestry received confirmation at the end of July that Africanized honeybees have been found in a trap in northwest Louisiana, Commissioner Bob Odom said.

"The bees were found in a trap in Caddo Parish near the town of Rodessa, about 35 miles northwest of downtown Shreveport," Odom explained. "Our inspectors collected the samples in June and sent them to the USDA bee lab in Tucson, Ariz. We received word July 29 that the samples were in fact Africanized honeybees."

Although the USDA has intercepted several Africanized bee colonies entering New Orleans on ships, this is the first instance of the bees moving into the state through natural range expansion. The aggressive bees have marked a steady path toward Louisiana since they first arrived in this country. They were discovered about 35 miles west of Caddo Parish in northeast Texas in late 2001. Earlier this year, Arkansas authorities also confirmed Africanized bees about seven miles north of the

Louisiana border and two miles east of the Oklahoma border.

"We've always said it's not a matter of if we get them but when we get them and now we know they're here," Odom said. "We've begun implementing our action plan by informing the public, moving traps and notifying beekeepers in the area."

"Our first goal was to let the public know so they are aware the bees are here. We're not trying to scare anyone but it's especially important for people who work outside or spend a lot of time outside in recreation to watch out for these insects and avoid stinging."

"We also want to protect beekeepers and their livelihood by certifying their colonies for sale or movement into areas requiring certification. The department's duty will be inspecting those operations next spring and certifying the colonies that don't contain any Africanized honeybees."

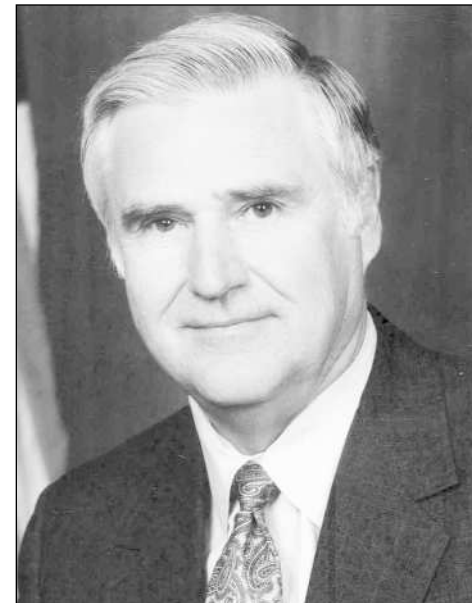

LDAF has maintained a line of traps running north and south near the Texas border in order to detect entry of Africanized honeybees into

the state. The traps will now be located starting at Converse in Sabine Parish along Highway 174 to Pleasant Hill up Highway 177 to Armistead then up Highway 371 to Minden. In Minden the traps will follow Highways 159 and 521 to the Arkansas line. The traps are roughly two miles apart and contain a queen bee pheromone that attracts swarms of bees.

Other bee collections from traps in Caddo Parish have been made but they were all confirmed negative for Africanized honeybees.

There are 17 beekeepers with 811 colonies in 36 locations in Caddo Parish that could be affected by the finding of Africanized bees in the area.

"Africanized honeybees are a big threat to the public perception of beekeepers, many of whom have colonies of European honeybees in their own backyards. The department has been working with them so that when the Africanized bees arrived in our state, beekeepers could take measures to assure their neighbors that their hives are safe," Jimmy Dunkley, state apiarist, remarked.

Commissioner Bob Odom

## Did You Know:

Africanized honeybees are smaller, more aggressive bees than the European honeybees commonly raised for honey production. It is their aggressive nature that scares many outdoor enthusiasts.

"Because Africanized bees have been labeled 'killer bees' for years, there's an idea around that they are bigger than European honeybees," Agriculture and Forestry Commissioner Bob Odom said. "The truth is they're actually smaller but a lot fiercer."

The venom in Africanized bees is the same as that in European bees, but Africanized bees will sting in greater masses leading to a toxic reaction in some cases. State Apiarist Jimmy Dunkley recommended seeking cover immediately to reduce the number of stings in a confrontation with Africanized bees.

Here are some precautions to take at home:

Check around your home weekly during swarming season (usually spring and fall). Listen for the sound of bees in the air. Persistent buzzing may indicate a hive or swarm nearby.

Fill in potential nesting sites like tree cavities and holes in outside walls. Remove piles of trash and junk.

Do not disturb a bee colony if one is discovered. Call the Department of Agriculture and Forestry to find a beekeeper or pest control operator who removes bees.

If attacked by Africanized honeybees, run away as fast as possible. Seek shelter indoors immediately. If a great number of stings occurs, seek immediate medical attention

## CATTLE

No grade sires listed in the interest of better livestock. All dairy cattle 20 mos. of age, beef cattle 24 mos. of age, or pastured or post pastured animals of any age offered for sale, except for immediate slaughter, must have valid 30-day negative brucellosis test certificate. Contact La. Dept. of Agriculture and Forestry, P.O. Box 1951, Baton Rouge, La. 70821-1951.

**REMINDER: Have all of your heifer calves between four and 12 months of age vaccinated against brucellosis. For information contact your local veterinarian, LDAF animal health personnel, your parish Cattlemen's Association or parish Farm Bureau.**

## Bee Healthy - Eat Honey\*

*recipes from [www.honey.com](http://www.honey.com)*

Note: Honey should not be fed to infants under one year of age. Honey is a safe and wholesome food for children and adults.

### Bee Sweet Banana Bread

#### Part I

1/2 cup honey  
1/3 cup butter or margarine  
1 tsp. vanilla  
2 eggs  
1/2 cup all-purpose flour  
3/4 cup whole wheat flour

1/2 cup quick-cooking oats  
1 tsp. baking powder  
1/2 tsp. salt  
1 tsp. ground nutmeg  
1 cup mashed ripe banana  
1/2 cup chopped walnuts

### Honey & Nut Glazed Brie

1/4 cup honey  
1 tbsp. brandy  
1/4 cup coarsely chopped pecans

about 5-inch diameter brie  
cheese

In a small bowl, combine honey, pecans and brandy. Place cheese in a large ovenproof platter or 9-inch pie plate. Bake in a preheated, 500-degree oven for 4 to 5 minutes or until cheese softens. Drizzle honey mixture over top of cheese. Bake 2 to 3 minutes longer or until topping thoroughly heated. Do not melt cheese.

### Bee Sweet Banana Bread

#### Part II

Cream honey and butter in a large bowl with electric mixer until fluffy. Beat in vanilla. Add eggs, one at a time, beating well after each addition. Combine dry ingredients in small bowl; add to honey mixture alternately with bananas, blending well. Stir in walnuts. Spoon batter into greased and floured 9x5x3 loaf pan. Bake in preheated 325-degree oven for 50-55 minutes or until a wooden toothpick inserted near center comes out clean. Cool in pan 15 minutes. Remove from pan; cool completely on a wire rack.

### Bees in the Garden Coleslaw

1 head green cabbage, shredded  
1 green bell pepper, diced  
1/2 cup sweet red pepper, diced  
1/2 cup mayonnaise  
1/3 cup honey

2 tbsps. vinegar  
1/2 tsp. salt  
1 tsp. dry mustard  
1/2 tsp. celery seed  
1/4 tsp. black pepper

Toss cabbage and peppers in large bowl. Combine mayonnaise, honey, vinegar, salt, mustard, celery seed and black pepper in medium bowl, then toss with cabbage mixture. Mix well; cover and refrigerate until thoroughly chilled.

### Candied Yams

6 yams, sliced and cooked  
2 tbsps. cornstarch  
1 1/2 cups honey

1/8 tsp. salt  
1 1/2 cups water

Combine all ingredients, except yams, in medium saucepan and cook on medium-low heat until clear. Pour over cooked yams and bake at 400-degrees until brown.

### Foaming Vanilla Honey Bath

1 cup sweet almond oil  
(light olive or sesame oil  
may be substituted)

1/2 cup honey  
1/2 cup liquid soap  
1 tbsp. vanilla extract

Measure the oil into a medium bowl, then carefully stir in remaining ingredients until mixture is fully blended. Pour into a clean plastic bottle, w/tight-fitting stopper or lid. Shake gently before using. Makes enough for four large, luxurious baths. Not for human consumption.

### Honey Almond Scrub

8 whole unblanched almonds  
2 tbsps. rolled oats, uncooked  
1 tbsp. honey

2 tbsps. yogurt, sour cream or  
lightly beaten egg whites

Process almonds and oats in a blender until they are finely ground. In a small bowl, mix ground almonds and oats, honey and yogurt until blended. Pat scrub on face and neck; leave it on for up to 10 minutes for extra softening. Wet your hands and massage gently to exfoliate. Rinse off. Makes enough for 1 scrub. Not for human consumption.
